**Soccer club raises money for cancer**

As part of a year-long community service initiative, Washington Premier Futbol Club, which involves many Platcan-area families, joined forces with the non-profit corporation Athena Partners and 41 foodservice businesses to raise awareness and money for breast and other women's cancers. A check was presented to Fred Hutchinson Cancer Research Center during the June 13 Rainier Challenge soccer event in Puyallup. Money was also raised for a student athlete scholarship.

The foodservice businesses donated \$20,000 to the Fred Hutchinson Cancer Research Center on behalf of Athena and WPFC. The scholarship fund begins with a \$5,000 award for the 2009-10 school year. The Athena Scholarship will be awarded to one or more WPFC high school seniors
